

Your Summer Home Maintenance Checklist

Stay cool and stress-free with our essential summer home maintenance checklist.
Includes HVAC, plumbing, and electrical tips.

Cooling & Air Conditioning

Stay cool and avoid emergency breakdowns with these quick tasks.

- ☐ Replace or clean your AC filter
- ☐ Clear leaves, grass, or debris from your outdoor AC unit
- ☐ Make sure indoor vents are open and clean
- ☐ Check that your thermostat is set and responding correctly
- ☐ Schedule a professional AC tune-up with Done! if you haven't already this year

Electrical Safety Check

Keep your home powered safely through high-usage months.

- ☐ Test smoke and carbon monoxide detectors
- ☐ Reverse your ceiling fans to rotate counterclockwise for better airflow
- ☐ Inspect outdoor outlets and extension cords for wear
- ☐ Consider surge protection before summer storms
- ☐ Talk to Done! about adding outdoor outlets or upgrading your panel if needed

Plumbing Essentials

Prevent water damage and make sure your plumbing is working efficiently.

- ☐ Check outdoor faucets for leaks or drips
- ☐ Look under sinks for signs of moisture or corrosion
- ☐ Test your home's water pressure
- ☐ Flush your water heater to remove built-up sediment
- ☐ Call Done! if you notice low pressure, unusual sounds, or visible leaks

Interior Checkpoints

Give your indoor comfort a quick once-over.

- ☐ Wash windows and wipe down door frames
- ☐ Clean vent fans in bathrooms and kitchens
- ☐ Look for gaps or cracks that may let bugs or heat inside
- ☐ Use smart home timers if you're traveling
- ☐ Reach out if anything feels off—Done! is here to help

Take Plumbing, HVAC & Electrical Off Your To-Do List.
